

2024 ILANZ Awards Nomination 'Hot Tips'

1. The judges use the award criteria while marking. Nominations are judged against each criteria equally and should address **all** the criteria. Think back to university - look at the guidelines, ensure you've covered them and provide back-up evidence to support your claims.
2. Include supporting material to bring the entry to life – references, video, direct links, media. Please note the page limit (4) for supporting material will be adhered to.
3. Separate what is BAU, and what are initiatives or projects.
4. Don't just list initiatives. We want to know how they went – what went well, what didn't, what did you learn, what was the outcome.
5. Lastly, layout your entry clearly – and use the same font!
